FOR IMMEDIATE RELEASE:

Evans City to be Home of New Wellness and Day Spa

Evans City, PA – August 2004 – September will mark the emergence of a unique establishment in the regional landscape. The OSIRIS Wellness and Day Spa, co-owned and operated by Evans City residents Rock Arkie and Marcia Klaric will promote an eclectic approach to wellness, wellbeing and beauty. The opening is a culmination of a journey's worth of efforts resulting in the transformation of a simple 131-year-old rustic log cabin into a serene and architecturally intriguing facility.

Nestled within a rolling, wooded 6-acre lot, the spa is located along Mars-Evans City Road. The facility is spread over three levels, with 6,000 square feet of tranquil interior space devoted to the enchantment of its guests. OSIRIS Wellness and Day Spa features complimentary amenities including a therapy room that incorporates a Marquis® spa, an infrared sauna, and steam shower. Additionally, the facility houses a relaxation lounge, a separate workout space for regularly offered Yoga sessions and access to exterior delights including gardens, and a multi-level waterfall that feeds a dramatic koi pond.

Visually breathtaking, OSIRIS utilizes feng shui allowing "chi", or energy, to flow freely creating a sense of balance and serenity while retaining respect and integrity. Awaiting inside is an inviting reception to the senses. Water trickling from a slate wall sculpture, peaceful audio medleys and aromatic oils induce a meditative repose that calms the senses and soothes the soul.

The OSIRIS staff consists of 12 highly qualified, licensed and experienced personnel within their respective disciplines, which includes massage therapists, cosmetologists, estheticians, dieticians and yoga instructors.

The OSIRIS Wellness and Day Spa offers each guest an exceptional and personalized spa experience. Guests are encouraged to enjoy a tea or juice while listening to selections of soothing music prior to or following their treatments. According to Klaric, "Our philosophy is holistic and it is our desire that each of our guests achieves a harmony of body, mind and spirit. The facility was designed as a personal retreat to promote relaxation in comfort. We anticipate our guests will savor the surroundings at a pace that is solely up to them."

Rejuvenation of body mind and spirit are essential themes for the Spa and the name OSIRIS, the legendary Egyptian god of regeneration, eternal life and prosperity was selected based on its resonance with these concepts. The spa offers an array of treatments ranging from massages, facials, and body treatments, to waxing, couples packages, or select custom services. The OSIRIS spa is an exclusive distributor of the Pevonia® line of botanical products, world renown for their natural ingredients and therapeutic effects.

According to Arkie, "The distinctiveness of OSIRIS can only be appreciated by experiencing it. Our commitment is to provide the very best in personalized services. We are confident that our guests will emerge from this haven, renewed and replenished. They will discover that the stresses of everyday life have been dissolved and replaced with balance and harmony."
